

Winter Art Techlympics 2018 Rules

Whilst competing you must abide by the following rules:

- Make sure you have read all of the Art Techlympics game information and read and signed the Liability Waiver so you know exactly what the deal is and completely prepared.
- Registration from 1pm till 1:45pm and all team members must be onsite ready to start for 1:45pm with their team outfits on – you're late, you're not playing.
- Some games require your own tools. Only use the tools specified for each event – drill, knife, hammer, and steel toe boots (for all events).
- There are no lockers or anything so you need to be responsible for your own kit.
- Team uniforms must be worn at all times.
- Only nominated team competitors in the performance space during an event.
- Each member of the team must compete in at least one event.
- Adjudicators decision is final – you start giving lip, you might just find yourself disqualified.
- Be safe & look after you team mates.
- We are all in it to have fun - don't be a dick!
- Please respect the facilities as we have rented the space from New River Studios and there is the likelihood that there may be people working in the studios during the event.
- Have fun – that's what this is all about as well as beating the crap out of other technicians with your mad skills (not your fists).
